lbstone cabinet.

True to our founder's vision, while moving with the times. Always in tune with changing needs and desires. Classic design and traditional craftsmanship, for the way we live now.

Lucian Ercolani, my great-grandfather, founded ercol in 1920. Edward Tadros, my father, has been our Chairman for the last 29 years. I am now immensely proud to be the fourth generation of our family taking over the role of Chairman as we embark on our second century. We remain true to Lucian Ercolani's fundamental principles of design, craftsmanship, innovation, and excellence.

I strongly believe that at the heart of everything we do are our people and our factory; a modern, highly sustainable facility in Buckinghamshire. Here, the latest high-tech machinery sits alongside age-old traditional skills and methods used by our craftspeople, many have worked with us for over 21 years, passing on their skills and knowledge to our young apprentices. To ensure the breadth of choice for you, our customers, we also work closely with trusted manufacturing partners elsewhere in the world.

Our furniture is created by our brilliant Design team, and from time to time in collaboration with exciting emerging British design talent. And behind every piece is the same clear intention: to bring unique and lasting beauty, comfort and practicality to every room in your home.

Henry Tadros, Chairman.

This is your home. Where everything is just as you want it. Comfortable. Familiar. Personal. Like nowhere else, and the place you love best in the world.

Lugo

Lugo beautifully captures the simplicity, practicality and thoughtful detailing of mid 20th-Century Nordic design. You'll find delightful creative touches throughout the collection, which is made from tulipwood stained to a deep, rich tone. The chairs are made from ash and stained to match.

Ibstone

A beautiful statement piece, the Ibstone cabinet has the softly sculpted outlines and refinement that have always been ercol hallmarks. The bold 'sunburst' pattern is cut into the solid ash doors for a subtle three-dimensional effect, with a central disc handle set in a gently dished recess. Each individual piece has its own unique quality and look, reflecting the beauty and variety of natural wood grain.

ercol Collection

New for 2023 is the Pebble coffee nest of tables, inspired by the smaller Pebble nest of three tables designed in the mid 1950's. These new tables have the same fluid curves and tapered legs that reflect the design heritage of this piece.

Ballatta

Practical and pared-down, Ballatta furniture is the perfect choice when space is at a premium. The desk and cabinets are ideal for adding storage in smaller rooms, and making good use of alcoves and corners.

As the seasons shift, so do trends; and as designers, we move in tune with both, while staying true to our founding principles.

Marlia chair

At ercol, wood is at the heart of everything we do, and our new collections reflects this in a celebration of craftsmanship, playfulness, and respect for this amazing natural material. Taking centre stage is our beautiful lbstone cabinet, in which we've reimagined existing parts to create a striking statement piece that shows off ash in all its glory. We've also scaled up our signature Pebble Nest Table for use as a coffee table. In both cases, we've used finish, material and colour relationships to maintain harmony with our other products, while also clearly evolving from previous seasons.

The Biophilia trend that we observed in 2021 has become more specific, with people increasingly seeking totems: natural objects believed to have spiritual significance and adopted as emblems. This evolving trend is 'Totemic' – design inspired by our innate human desire to seek connections with nature – especially in the context of the climate emergency, and the need to use natural resources respectfully and responsibly. Natural textures, sustainable materials and organic shapes are key to this trend, with leafy greens, natural blues and sandy pinks forming a grounding palette. Our lbstone cabinet and Pebble coffee table in our vintage stain capture this look perfectly, complemented by the refined aesthetic of our Aosta upholstery, with its generous chaise and boucle fabrics.

Aldbury chair

'At ercol, wood is at the heart of everything we do, and our new collections reflects this in a celebration of craftsmanship, playfulness, and respect for this amazing natural material.'

Filling our homes with items we cherish and adore is the underlying message of 'Cherish', which builds on the 'Mother Earth' trend we observed in 2021. Here, rich terracotta, ochre and deep red tones come together to create a warm, inviting space, evoking the feel of a warm summer evening. Handcrafted artifacts and sculptural raw unglazed ceramics alongside natural woven textiles add warmth and tactility, which can be seen through a selection of natural fabrics across our upholstery collection.

And in times that seem ever more unpredictable and chaotic, Lightness is all about quiet, mindfulness and treading lightly on the earth. A development of last year's Calm Waters, the delicate, gentle colour palette layers warm, neutral shades of camel, pebble and taupe, accented with sandy pink, calming blue and gentle soft green, to create a serene and peaceful space. Our new Aosta upholstery sits perfectly within this trend, with its soft taupe leather and recliner options. Accessorised with gently hued glass and bedding in washed linen, Lightness encourages us to slow down, relax and reflect. And who among us doesn't need to do that?

Romana

Romana's smooth, organic lines and deceptively understated design belie a wealth of complexity. Recalling our designs of the mid 20th century, it's crafted in light oak, with sculpted curves, flush surfaces and soft-close drawers and doors.

Teramo

Made in pale oak and incorporating elements of the perennially popular Shaker style, Teramo is a highly adaptable range. It has everything you need to create a modern, casual look, or something slightly more classical and formal, paired here with Ballatta.

Our company was founded by Lucian R Ercolani, whose vision and approach to design still exert enormous influence as we embark on our second century.

Born in 1888 in Tuscany, Lucian, the son of a picture-frame maker, came to London as a child, and studied drawing, design and furniture-making at night-school in Shoreditch. As a young man, he moved to High Wycombe, then the 'furniture capital of England', where he worked alongside some of the era's leading designers and manufacturers, before branching out on his own in 1920.

Lucian was a pioneering designer, and placed design at the heart of everything he did and produced. In the early 1950s, he launched a range of affordable, honest and functional furniture with beautiful, distinctive outlines and subtle details that would become a household name. But he was equally committed to people and the traditional skills of hand craftsmanship – values we still uphold today.

Lucian believed that when he founded the company, he was also establishing a dynasty. That vision has been realised through his grandson, Edward Tadros, who started working for the business in 1973 and has served as our Chairman since 1994. Sharing his grandfather's passion for design and manufacturing processes, Edward was instrumental in developing and building our award-winning factory in Princes Risborough.

Top right: ercol founder, Lucian Ercolani. Below: Lucian Ercolani, affectionately known as "The Old Man" and his two sons, Lucian B and Barry, 1945.

In 2022 Edward stepped down as chairman, to be succeeded by his son, and Lucian's great-grandson, Henry. The company is now one of only a handful of large firms to remain fully owned and managed by the fourth generation of the founder's family. And while ercol has won numerous awards and delighted customers across the world, we believe this achievement would make Lucian proudest of all.

Like many companies, we're constantly seeking new ways to make our products, and our business more sustainable. It's not something that happens overnight: it's a long journey, made up of many small steps. But every one counts, and we're taking as many as we can.

Top image: lbstone cabinet and Marino chair. Bottom image: Evergreen chair and ercol collection pebble nest of tables.

We recently introduced Quallofil Blue cushion interiors on our Aldbury chair, and Marino chair and sofa. This material is made through a partnership between fibre manufacturer Dacron and social enterprise Plastic Bank. Plastic waste collected by local people from beaches around the world is crushed into flakes, then spun into fibres. As well as tackling the huge problem of plastic pollution, it's providing an income for impoverished coastal communities in countries including Brazil, Egypt, Indonesia and the Philippines.

'Many of our new products will be made by our highly-skilled crafts people at Princes Risborough as we continue to look at how our production process can utilise parts and improve efficiency.'

And on the natural fibres front, we're increasing our use of wool and fabrics made from recycled materials in our products. Our partners include Abraham Moon & Sons, founded in 1837, which still weaves wool 100% natural, sustainably sourced fabrics at its factory in Yorkshire. All the wool comes from farms with high animal welfare standards; after weaving, the fabric is washed in local spring water. We're also working with Lancashire weavers Ian Mankin, which operates one of the last surviving cotton mills in Britain. Set up in 1983, the company now produces fabrics made exclusively from natural, recycled or certified organic fibres, while remaining committed - like us - to preserving traditional crafts and skills while addressing contemporary challenges.

And, where we can, many of our new products will be made by our highly-skilled crafts people at Princes Risborough as we continue to look at how our production process can utilise parts and improve efficiency.

Information Guide

In the following pages, you'll find product specifications including wood finishes, dimensions and any other important information relevant to your chosen collection.

Wood finishes and colours

We work with solid ash, oak and tulipwood, and some wood veneers and composites where technically required, each carefully purchased from responsibly harvested sources complying with the European and UK Timber Regulations. We prioritise wood from sustainably managed sources where possible, and conduct periodic testing across our supply chains to ensure materials are of declared origin and species.

Our furniture is finished with a wood stain, the options for which are shown right and on relevant product specification pages, before a coat of lacquer is applied to protect the furniture. Please note that our Clear Matt (CM) finish seals and protects the furniture. As a result, it does not blend or conceal any of the natural variations within the timber. It will show the wood colour and grain off to its full, natural beauty.

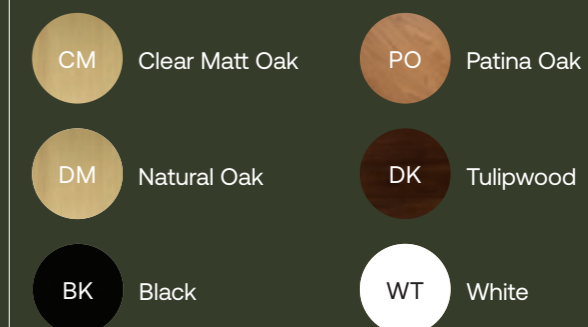

Timbers can also vary from range to range. To see the exact colour and finish of the wood, order a sample by visiting ercol.com.

For safety reasons, all cabinets over 60cm in height should be secured to a wall to ensure stability. For this reason furniture will have holes or fixings on the back.

Fabric ranges

We have a wide range of fabrics for our sofas and chairs. Fabrics to suit the furniture designs have been carefully selected and the names of the fabric collections are shown on the specification pages - ercol, Edit, Natura, Paloma and Dining. To view these on the furniture visit ercol.com

Sofas are measured to maximum dimensions, but due to the manufacturing process, these can vary slightly. Scatter cushions supplied are as per images shown on pages 84 -95.

We offer a re-cover service on some show wood frame ranges. You can order genuine ercol replacement cushions to extend the life of your furniture. The ranges available for this service are listed in our ReCover guide or at ercol.com/recover

Teramo

Teramo dining uses motifs familiar within ercol furniture, such as Windsor chair shapes and classic shaker cabinet layouts, to create a casual range of dining furniture. The collection uses tapered, turned shapes in the legs, and curved profiles on top panels within the cabinets. The range has two extending dining tables and a classic styled dining chair, along with a selection of cabinets and occasional pieces.

Mattresses

Alongside our well-known ranges for living rooms and dining rooms, we've been making bedroom furniture since our earliest days. Now, we're taking that aspect of our business to a whole new level, by offering our own range of mattresses to complement our timber bedsteads.

We believe in a great night's sleep for everyone.

A partnership with shared values

As furniture specialists, we knew we didn't have all the necessary skills and experience we needed in house, so we set out to find a partner. Top of our list of requirements was a company that shared our commitments to championing traditional craftsmanship and using sustainable materials and methods. After a long, careful search, we found them – and best of all, just like ercol, they're a long-established family firm.

In fact, mattress-maker Harrison Spinks can trace its roots back to 1840, and is still based at its original farm in Yorkshire. And like us, the company combines natural materials with modern technology and sustainable thinking and practices.

A great night's sleep for everyone

Working in partnership, we've designed and produced a range of four mattresses - the Wooton, Ledwell, Culworth and Bainton - to meet different customer requirements and price points. They're all handmade in the UK using wonderful natural materials including wool, hemp, Egyptian cotton, mohair and even cashmere. But they also include the pioneering Cortec spring system that, as well as providing incredible comfort and support, are 100% recyclable and glue-free. The mattress covers, which are handwoven in the UK using state-of-the-art machines, are breathable for comfort and free of fire retardant chemicals. Taken together, this all means our mattresses are zero-to-landfill at the end of their (long) lives. Compared to many mattresses, they're much better for your health and sleep patterns, and have vastly less impact on the environment.

Bosco

The Bosco bedroom range references some classic ercol shapes such as oval cut-out handles, a tactile feature when opening and closing the drawers on the chest of drawers and bedside table. The finger joint detail from the chest of drawers and bedside table is repeated in a larger and bolder scale on the headboard, to create a focal point for the in your bedroom.

For ease of access wardrobes and beds require assembly. Ask your retailer for details.

Monza

The Monza bedroom range is a contemporary update of classic, mid-century design, with a textured patina finish. Chests are constructed with mitred corner joints and a rounded undercut detail, framing the chevron veneer drawer fronts. Tapering turned legs and angled plinth rails are painted black to highlight their elegant shapes and create a sense of lightness.
